An unauthorized work, it won the National Book Critics Circle Award in 1998 and was nominated for the Pulitzer Prize in biography. It inspired the 2001 film by the same name. Starting with his childhood, the book covers Nash's years at Princeton and MIT, his work for the RAND Corporation, his family and his struggle with schizophrenia. The book ends with Nash being awarded the Nobel Prize in Economics in 1994. The book is a detailed description of many aspects of Nash's life, including the nature of his mathematical genius, and a close examination of his personality and motivations. It gives an interesting perspective on the stresses placed on personal and professional relationships by severe mental illness.
