SAP HANA Starter

Mark Walker

SAP HANA Starter Mark Walker

Everything you need to know to be able to build your first SAP HANA standalone application!

Overview

- Understand key principles behind SAP HANA
- Discover the main features of the SAP HANA Studio for application design
- Create a reporting application on the SAP HANA platform
- Visualize your reporting data in Microsoft Excel

In Detail

SAP HANA is SAP's in-memory database technology, and the focal point of their next generation strategy. Using column-based storage to provide highly compressed and rapidly accessed data, a SAP HANA application can be several hundred times faster than the same application on previous generation database technology.

SAP HANA Starter is a hands-on book, taking you step-by-step through the creation of your first SAP HANA application. You will discover the building blocks that SAP HANA provides, and use them to create a robust reporting application. More advanced features are shown, allowing you to transform your reporting application into a yearly sales increase simulator. Finally, you'll learn how to access your SAP HANA application from Microsoft Excel.

Using easy to understand examples and logical progression, you will build your first SAP HANA application – a sales amount simulator, from scratch.

Starting with the creation of tables in the database, and using the modeling building blocks provided by the SAP HANA Studio, you will first see how to build a reporting application on these tables, and then extend this application to allow sales increase simulation, finally making the data available to others in Microsoft Excel.

What you will learn from this book

- Understanding the concepts behind the SAP HANA System – what makes it different
- Installation and configuration of the SAP HANA Studio
- Creation of database tables and attribute and analytic views – the building blocks of any SAP HANA application
- Development of graphical calculation views for more advanced reporting needs
- Use of calculated attributes and measures in reporting views to manipulate data on the fly
- Addition of filters and user prompts to your application for more dynamic output
- Integration with reporting tools such as Microsoft Excel using MDX
- Discover some of the most useful websites and blogs documenting SAP HANA

Approach

Written as a practical guide, SAP Hana Starter will show you all you need to know to build your first reporting application utilizing SAP's new in-memory database technology.

Who this book is written for

SAP HANA Starter is aimed at SAP consultants and users of competing database technologies, as well as anyone curious as to what all the fuss concerning SAP HANA is about. No previous SAP ERP, BW, or database programming experience is necessary, though notions of how SQL and table joins work will be advantageous. Access to a SAP HANA box is necessary to follow the examples locally.

From reader reviews:

Katie Johnson:

In this 21st century, people become competitive in each way. By being competitive at this point, people have to do something to make these individuals survive, being in the middle of typically the crowded place and notice by simply surrounding. One thing that often many people have underestimated this for a while is reading. Yeah, by reading a guide your ability to survive enhance then having chance to remain than other is high. For you who want to start reading a new book, we give you that SAP HANA Starter book as beginner and daily reading publication. Why, because this book is greater than just a book.

Maryann Carson:

Reading can be called head hangout, why? Because if you are reading a book especially book entitled SAP HANA Starter your thoughts will drift away through every dimension, wandering in every aspect that maybe unfamiliar for but surely will end up your mind friends. Imaging each and every word written in a publication then become one web form conclusion and explanation that maybe you never get previous to. The SAP HANA Starter giving you an additional experience more than blown away your brain but also giving you useful details for your better life in this era. So now let us teach you the relaxing pattern this is your body and mind will be pleased when you are finished studying it, like winning a casino game. Do you want to try this extraordinary wasting spare time activity?

Crystal Parrish:

Is it anyone who having spare time then spend it whole day by simply watching television programs or just laying on the bed? Do you need something totally new? This SAP HANA Starter can be the respond to, oh how comes? A book you know. You are and so out of date, spending your spare time by reading in this fresh era is common not a nerd activity. So what these books have than the others?

Ruth Paiz:

As a pupil exactly feel bored for you to reading. If their teacher asked them to go to the library or make summary for some e-book, they are complained. Just minor students that has reading's internal or real their interest. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that studying is not important, boring in addition to can't see colorful pictures on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore, this SAP HANA Starter can make you experience more interested to read.
