Everybody enjoys playing board games, but we just don't play them enough. Why? Because we all hate having to set the board games up, and it takes time to put away! Not anymore! With your eReader you can now play popular board games, such as Chess, Mastermind, Battleships, Checkers and many more.

Board games always require two players, but with these games, you can play against your Kindle, but if you wish, all of these games (apart from Mastermind and Connected 4) can be played against another person, just change the CPU to a human player. Fun for playing anywhere around the house, taking a break at work, or on a journey with a friend or relative - if you are in a WiFi area, or your device has 3G.
