Would you want to be a student in your own classroom? In *Passionate Learners: How to Engage and Empower Your Students*, author Pernille Ripp challenges both novice and seasoned teachers to create a positive, interactive learning environment where students drive their own academic achievement. You'll discover how to make fundamental changes to your classroom so learning becomes an exciting challenge rather than a frustrating ordeal. Based on the author's personal experience of transforming her approach to teaching, this book outlines how to:

- Build a working relationship with your students based on mutual trust, respect, and appreciation.
- Be attentive to your students' needs and share ownership of the classroom with them.
- Break out of the vicious cycle of punishment and reward to control student behaviour.
- Use innovative and creative lesson plans to get your students to become more engaged and intellectually-invested learners, while still meeting your state standards.
- Limit homework and abandon traditional grading so that your students can make the most of their learning experiences without unnecessary stress.
- And much more!

New to the second edition, you'll find practical tools, such as teacher and student reflection sheets, parent questionnaires, and parent conference tools--available in the book and as eResources on our website (<http://www.routledge.com/9781138916920>)?to help you build your own classroom of passionate learners.
