## **The Intelligent Enneagram** A. G. E. Blake

At last, an enneagram book that explains the full potential of this mysterious nine-pointed symbol, with applications reaching far beyond personality typology. The enneagram, an ancient diagram first popularized by G. I. Gurdjieff, represents the evolution of any process and is thus a remarkable tool for analyzing and understanding many different areas of endeavor. Like the I Ching hexagrams or the kabbalistic Tree of Life, the enneagram is an ingenious device providing access to a higher order of information and can lead us to new and creative ways of thinking and problem-solving. Drawing on the teachings of John Bennett, a major interpreter of the Gurdjieff Work, the author shows how using the enneagram can enhance our powers of intuition, our capacity to see situations holistically, and our ability to find connections between different regions of knowledge and experience. After discussing in detail the fundamental ideas woven into the symbol, the author applies the insights in the enneagram to a series of topics ranging from the solar system to sex, from science fiction movies to the Lord's Prayer.
