**Horses Without Grass: How We Kept Six Horses Moving and eating Happily Healthily on an Acre and a Half of Rock and Dirt: An eBook Nugget from The Soul of a Horse - Vol 2 (Volume 2)** Joe Camp

Come along with best selling author Joe Camp and his wife Kathleen on their journey of discovery as these two rank neophytes slowly but surely figured out how to turn their horses lives completely around and turn their steep one-and-a-half acre hillside of rock and dirt into a happy and healthy lifestyle for their entire herd. When Joe and Kathleen acquired their first three horses, soon to be six, they were all living in stalls, wearing metal shoes, and eating sugary feed from a bag. Because so many of the questions they were asking were turning up answers that made no sense they finally began to dig into serious research on their own to determine how their new horses should be living and eating. To dig out the actual facts, not the legends. Not the hearsay. Not the standard "That's the way it's always been done." And what Joe and Kathleen discovered was nothing short of amazing. Virtually everything they had been told to do was diametrically opposed to the way horses - all horses - should actually be living. Read stories you'll love and the information you need.
