Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM

World Spaceflight News, U.S. Navy, Department of Defense (DoD), U.S. Government

Navy officials announced in April 2013 that a solid-state laser would be deployed onboard the U.S.S. Ponce, providing the first at-sea demonstration of a revolutionary directed energy weapon. The demonstration is part of a wider portfolio of near-term Navy directed energy programs that promise rapid fielding, demonstration and prototyping efforts for shipboard, airborne and ground systems. The Office of Naval Research (ONR) and Naval Sea Systems Command recently performed demonstrations of high-energy lasers aboard a moving surface combatant ship, as well as against remotely piloted aircraft. Through careful planning of such demonstrations and by leveraging investments made through other DoD agencies, researchers have been able to increase the ruggedness, power and beam quality of lasers, more than doubling the range of the weapons.

This ebook includes a detailed report on the laser program, Navy Shipboard Lasers for Surface, Air, and Missile Defense: Background and Issues for Congress. Contents include:

Scope, Sources, and Terminology * Background * Shipboard Lasers in General * Potential Advantages and Limitations of Shipboard Lasers * Potential Targets for Shipboard Lasers * Required Laser Power Levels for Countering Targets * Types of Lasers Being Developed for Potential Shipboard Use * Fiber Solid State Lasers (Fiber SSLs). * Slab Solid State Lasers (Slab SSLs) * Free Electron Lasers (FELs) * Navy Surface Fleet's Generalized Vision for Shipboard Lasers * Remaining Technical Challenges * ONR Solid-State Laser Technology Maturation Effort * Naval Directed Energy Steering Group * Directed Energy Vision for U.S. Naval Forces * Destroyers and LCSs Reportedly Leading Candidate Platforms * FY2012 Congressional Report Language * FY2012 National Defense Authorization Act (H.R. 1540/P.L. 112-81) * FY2012 Military Construction and Veterans Affairs and Related Agencies * Appropriations Act (H.R. 2055/P.L. 112-74) * FY2013 Funding Request * Issues for Congress * Program of Record and Roadmap * Arguments Against Developing a Roadmap or Program of Record. * Arguments Supporting Developing a Roadmap or Program of Record * Number of Laser Types to Continue Developing * Potential Strategies * Relative Merits of Laser Types * Implications for Ship Design and Acquisition * Options for Congress * Legislative Activity for FY2013 * FY2013 Funding Request.

"The future is here," said Peter A. Morrison, program officer for ONR's Solid-State Laser Technology Maturation Program. "The solid-state laser is a big step forward to revolutionizing modern warfare with directed energy, just as gunpowder did in the era of knives and swords."

Officials consider the solid-state laser a revolutionary technology that gives the Navy an extremely affordable, multi-mission weapon with a deep magazine and unmatched precision, targeting and control functions. Because lasers run on electricity, they can be fired as long as there is power and provide a measure of safety as they don't require carrying propellants and explosives aboard ships.

From reader reviews:

Martina Joseph:

Do you certainly one of people who can't read enjoyable if the sentence chained in the straightway, hold on guys that aren't like that. This Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM book is readable through you who hate those straight word style. You will find the info here are arrange for enjoyable examining experience without leaving actually decrease the knowledge that want to deliver to you. The writer of Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM content conveys thinking easily to understand by lots of people. The printed and e-book are not different in the content but it just different by means of it. So , do you still thinking Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM is not loveable to be your top record reading book?

Paul Anderson:

This Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM tend to be reliable for you who want to be a successful person, why. The main reason of this Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM can be among the great books you must have will be giving you more than just simple studying food but feed an individual with information that might be will shock your previous knowledge. This book is actually handy, you can bring it just about everywhere and whenever your conditions at e-book and printed versions. Beside that this Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM forcing you to have an enormous of experience like rich vocabulary, giving you trial run of critical thinking that we realize it useful in your day activity. So , let's have it appreciate reading.

Ernesto Harrell:

This Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM is completely new way for you who has attention to look for some information mainly because it relief your hunger associated with. Getting deeper you upon it getting knowledge more you know or else you who still having little bit of digest in reading this Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM can be the light food in your case because the information inside this book is easy to get by means of anyone. These books acquire itself in the form that is reachable by anyone, yep I

mean in the e-book contact form. People who think that in guide form make them feel sleepy even dizzy this publication is the answer. So there is absolutely no in reading a e-book especially this one. You can find actually looking for. It should be here for an individual. So , don't miss the item! Just read this e-book kind for your better life and knowledge.

Bruce Herrera:

Some individuals said that they feel bored stiff when they reading a guide. They are directly felt this when they get a half regions of the book. You can choose the particular book Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM to make your own reading is interesting. Your current skill of reading skill is developing when you such as reading. Try to choose easy book to make you enjoy to see it and mingle the opinion about book and examining especially. It is to be 1st opinion for you to like to available a book and go through it. Beside that the book Navy Shipboard Lasers for Surface, Air, and Missile Defense: Deployment of the First Solid-State Laser Directed Energy Weapon, SSL, FEL, TLS, MLD, Terminal Defense Against China's ASBM can to be your friend when you're sense alone and confuse in doing what must you're doing of this time.
