Agricultural Automation: Fundamentals and Practices

Agricultural Automation: Fundamentals and Practices

Agricultural automation is the core technology for computer-aided agricultural production management and implementation. An integration of equipment, infotronics, and precision farming technologies, it creates viable solutions for challenges facing the food, fiber, feed, and fuel needs of the human race now and into the future. **Agricultural Automation: Fundamentals and Practices** provides a comprehensive introduction of automation technologies for agriculture.

From basics to applications, topics in this volume include:

- Agricultural vehicle robots and infotronic systems
- Precision agriculture, with its focus on efficiency and efficacy of agricultural inputs and the spatial and temporal management of agricultural systems
- Specific agricultural production systems, including those related to field crops, cotton, orchards and vineyards, and animal housing and production
- Automation relative to specific inputs in agricultural production systems, such as nutrition management and automation, automation of pesticide application systems, and automated irrigation management with soil and canopy sensing
- Liability issues with regard to surrounding awareness and worksite management
- Postharvest automation?perhaps the most advanced component of agricultural production in terms of automation and an important factor in global agriculture

Agricultural mechanization, one of the top ranked engineering accomplishments in the past century, has created revolutionary change in crop production technology and made it possible to harvest sufficient products to meet the population's continuously growing needs. Continued progress is essential to the future of agriculture. This book provides an up-to-date overview of the current state of automated agriculture and important insight into its upcoming challenges.

From reader reviews:

Johnny Mosier:

Reading a book tends to be new life style with this era globalization. With studying you can get a lot of information that may give you benefit in your life. Along with book everyone in this world can share their idea. Guides can also inspire a lot of people. Plenty of author can inspire their reader with their story or their experience. Not only the story that share in the books. But also they write about the knowledge about something that you need illustration. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors in this world always try to improve their expertise in writing, they also doing some analysis before they write to the book. One of them is this Agricultural Automation: Fundamentals and Practices.

Christopher Patton:

Reading can called brain hangout, why? Because when you are reading a book specifically book entitled Agricultural Automation: Fundamentals and Practices your thoughts will drift away trough every dimension, wandering in each and every aspect that maybe unfamiliar for but surely will end up your mind friends. Imaging every word written in a book then become one web form conclusion and explanation that maybe you never get previous to. The Agricultural Automation: Fundamentals and Practices giving you a different experience more than blown away the mind but also giving you useful facts for your better life with this era. So now let us teach you the relaxing pattern at this point is your body and mind will probably be pleased when you are finished examining it, like winning a. Do you want to try this extraordinary spending spare time activity?

Eileen Smith:

Is it anyone who having spare time subsequently spend it whole day through watching television programs or just resting on the bed? Do you need something totally new? This Agricultural Automation: Fundamentals and Practices can be the answer, oh how comes? The new book you know. You are thus out of date, spending your free time by reading in this brand new era is common not a geek activity. So what these publications have than the others?

David Barthel:

As a scholar exactly feel bored to be able to reading. If their teacher requested them to go to the library in order to make summary for some reserve, they are complained. Just tiny students that has reading's heart or real their interest. They just do what the professor want, like asked to the library. They go to right now there but nothing reading very seriously. Any students feel that reading through is not important, boring in addition to can't see colorful photos on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Agricultural Automation: Fundamentals and Practices can make you feel more interested to read.
