## **Feminisms: An Anthology** Robyn Warhol-Down

In the landmark 1991 edition of *Feminisms*, Robyn Warhol and Diane Price Herndl assembled the most comprehensive collection of American and British feminist literary criticism ever published. In this revised edition, the editors have updated the volume, in keeping with the expanding parameters of feminist literary discourse. With the inclusion of more than two dozen new essays, along with a major reorganization of the sections in which they appear, Warhol and Price Herndl have again established the measure for representing the latest developments in the field of feminist literary theory. Believing that the feminist movement can only move forward "where difference commands attention, not dismissal or negativism," they have continued the original collection's mission of providing a multiplicity of perspectives and approaches. This revised edition contains three new sections ("Conflict," "Gaze," and "Practice") and includes more selections by and about women of color and lesbians.
