Beyond the Book: Technology Integration into the Secondary School Library Media Curriculum (Library and Information Problem-Solving Skills Series) Sandra L Doggett

What does the secondary school library media specialist need to know about technology in the twenty-first century? This book answers the question with a wealth of practical information. Doggett explores the pros and cons of using technology in the schools and describes how it affects the roles and interaction of media specialists, teachers, students, administrators, school system, community, and parents. She also demonstrates how to get off to a successful start with technology. Various research processes, emerging technologies, filtering, and search engines are just some of the topics covered in this valuable guide.
