## **The Archers: A Medieval Saga of Action and Adventure in King Richard's Feudal England and its wars with the French and the Saracens** Martin Archer

"The Archers" begins an exciting action and adventure saga set in medieval England during the days of King Richard and the crusades. It is the tale of a serf who rises to become the captain of a company of archers and leads its survivors back to feudal England from the crusade - and begins to forever change medieval and modern England. Not all of the archers return as a result of intense fighting, but some of the former serfs and free men do return - as battle hardened veterans determined to improve their lot in cruel and brutal medieval England. This exciting novel combines military historical fiction with a family saga.

"The Archer's Castle" is the second novel in the saga. William, his brother Thomas, and William's son George finally reach feudal England with the surviving archers and become embroiled in a war with the Earl of Cornwall that may or may not change England forever.

"The Archer's Return" is the third novel in this great saga. William leaves his son George and his brother Thomas in England and returns to the Holy Land with his company's ranks filled with newly recruited archers - to earn coins for his family and men by helping refugees escape from the victorious Saracens and carrying pilgrims and merchants between the crusader ports in the face of the Moorish pirates who dominate the Mediterranean Sea.
