## Software Process Improvement: Metrics, Measurement, and Process Modelling: Software Best Practice 4

C. Amting Directorate General Information Society, European Commission, Brussels Under the 4th Framework of European Research, the European Systems and Software Initiative (ESSI) was part of the ESPRIT Programme. This initiative funded more than 470 projects in the area of software and system process improvements. The majority of these projects were process improvement experiments carrying out and taking up new development processes, methods and technology within the software development process of a company. In addition, nodes (centres of expertise), European networks (organisations managing local activities), training and dissemination actions complemented the process improvement experiments. ESSI aimed at improving the software development capabilities of European enterprises. It focused on best practice and helped European companies to develop world class skills and associated technologies to build the increasingly complex and varied systems needed to compete in the marketplace. The dissemination activities were designed to build a forum, at European level, to exchange information and knowledge gained within process improvement experiments. Their major objective was to spread the message and the results of experiments to a wider audience, through a variety of different channels. The European Experience Exchange (UR-X) project has been one of these dissemination activities within the European Systems and Software Initiative. UR-X has collected the results of practitioner reports from numerous workshops in Europe and presents, in this series of books, the results of Best Practice achievements in European Companies over the last few years.

### **From reader reviews:**

#### **Marshall Jackson:**

Do you have favorite book? When you have, what is your favorite's book? Publication is very important thing for us to learn everything in the world. Each book has different aim or even goal; it means that book has different type. Some people sense enjoy to spend their a chance to read a book. They are really reading whatever they have because their hobby is usually reading a book. Think about the person who don't like looking at a book? Sometime, man or woman feel need book when they found difficult problem or maybe exercise. Well, probably you will want this Software Process Improvement: Metrics, Measurement, and Process Modelling: Software Best Practice 4.

#### **Karen Strange:**

This Software Process Improvement: Metrics, Measurement, and Process Modelling: Software Best Practice 4 book is not really ordinary book, you have it then the world is in your hands. The benefit you will get by reading this book is information inside this guide incredible fresh, you will get information which is getting deeper anyone read a lot of information you will get. This Software Process Improvement: Metrics, Measurement, and Process Modelling: Software Best Practice 4 without we realize teach the one who looking at it become critical in imagining and analyzing. Don't possibly be worry Software Process Improvement: Metrics, Measurement, and Process Modelling: Software Best Practice 4 can bring when you are and not make your carrier space or bookshelves' turn out to be full because you can have it with your lovely laptop even cellphone. This Software Process Improvement: Metrics, Measurement, and Process Modelling: Software Best Practice 4 having fine arrangement in word along with layout, so you will not really feel uninterested in reading.

#### **Jennifer Jackson:**

Do you have something that you want such as book? The book lovers usually prefer to opt for book like comic, quick story and the biggest the first is novel. Now, why not attempting Software Process Improvement: Metrics, Measurement, and Process Modelling: Software Best Practice 4 that give your satisfaction preference will be satisfied through reading this book. Reading habit all over the world can be said as the method for people to know world a great deal better then how they react in the direction of the world. It can't be stated constantly that reading addiction only for the geeky person but for all of you who wants to always be success person. So , for all of you who want to start examining as your good habit, you may pick Software Process Improvement: Metrics, Measurement, and Process Modelling: Software Best Practice 4 become your personal starter.

#### **Alva Stephenson:**

As we know that book is very important thing to add our understanding for everything. By a e-book we can know everything we wish. A book is a set of written, printed, illustrated or perhaps blank sheet. Every year

has been exactly added. This publication Software Process Improvement: Metrics, Measurement, and Process Modelling: Software Best Practice 4 was filled with regards to science. Spend your time to add your knowledge about your scientific disciplines competence. Some people has different feel when they reading a new book. If you know how big benefit from a book, you can feel enjoy to read a book. In the modern era like today, many ways to get book that you simply wanted.
