Health Care Ethics Committees: The Next Generation (J-B AHA Press) Judith Wilson Ross M.A., John W. Glaser S.T.D., Dorothy Rasinski-Gregory J.D. M.D., Joan McIver Gibson Ph.D., Corrine Bayley M.A. Approximately 85 per cent of hospitals now have ethics committees. But this statistic says little about the efficiency and importance of these committees in their institutions. Frequently, ethics committees exist more in name than in practice, and are left without the guidance and help of their institution. Health Care Ethics Committees provides a plethora of advice, including possible projects and activities, suggestions for making meetings more effective, insights into policy-making, and models for mission statements and goals. In addition, this book gives leaders a panoramic view of the past, present, and future of ethics committees in health care.
