Stochastic Models, Information Theory, and Lie Groups, Volume 2: Analytic Methods and Modern Applications (Applied and Numerical Harmonic Analysis)

Gregory S. Chirikjian

Stochastic Models, Information Theory, and Lie Groups, Volume 2: Analytic Methods and Modern Applications (Applied and Numerical Harmonic Analysis) Gregory S. Chirikjian

This unique two-volume set presents the subjects of stochastic processes, information theory, and Lie groups in a unified setting, thereby building bridges between fields that are rarely studied by the same people. Unlike the many excellent formal treatments available for each of these subjects individually, the emphasis in both of these volumes is on the use of stochastic, geometric, and group-theoretic concepts in the modeling of physical phenomena.

Stochastic Models, Information Theory, and Lie Groups will be of interest to advanced undergraduate and graduate students, researchers, and practitioners working in applied mathematics, the physical sciences, and engineering. Extensive exercises, motivating examples, and real-world applications make the work suitable as a textbook for use in courses that emphasize applied stochastic processes or differential geometry.

From reader reviews:

Tracy Gardiner:

The publication untitled Stochastic Models, Information Theory, and Lie Groups, Volume 2: Analytic Methods and Modern Applications (Applied and Numerical Harmonic Analysis) is the e-book that recommended to you to see. You can see the quality of the guide content that will be shown to an individual. The language that article author use to explained their way of doing something is easily to understand. The article author was did a lot of research when write the book, and so the information that they share for your requirements is absolutely accurate. You also can get the e-book of Stochastic Models, Information Theory, and Lie Groups, Volume 2: Analytic Methods and Modern Applications (Applied and Numerical Harmonic Analysis) from the publisher to make you considerably more enjoy free time.

Helen Mota:

Spent a free a chance to be fun activity to try and do! A lot of people spent their free time with their family, or their friends. Usually they doing activity like watching television, likely to beach, or picnic in the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your personal free time/ holiday? Might be reading a book can be option to fill your cost-free time/ holiday. The first thing that you ask may be what kinds of e-book that you should read. If you want to try out look for book, may be the book untitled Stochastic Models, Information Theory, and Lie Groups, Volume 2: Analytic Methods and Modern Applications (Applied and Numerical Harmonic Analysis) can be very good book to read. May be it might be best activity to you.

Karen Horton:

Does one one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Try to pick one book that you just dont know the inside because don't evaluate book by its deal with may doesn't work this is difficult job because you are scared that the inside maybe not while fantastic as in the outside seem likes. Maybe you answer could be Stochastic Models, Information Theory, and Lie Groups, Volume 2: Analytic Methods and Modern Applications (Applied and Numerical Harmonic Analysis) why because the great cover that make you consider about the content will not disappoint you. The inside or content is usually fantastic as the outside or maybe cover. Your reading 6th sense will directly guide you to pick up this book.

Margaret Babin:

A lot of people said that they feel fed up when they reading a book. They are directly felt this when they get a half regions of the book. You can choose typically the book Stochastic Models, Information Theory, and Lie Groups, Volume 2: Analytic Methods and Modern Applications (Applied and Numerical Harmonic Analysis) to make your own personal reading is interesting. Your skill of reading proficiency is developing

when you like reading. Try to choose very simple book to make you enjoy you just read it and mingle the opinion about book and looking at especially. It is to be very first opinion for you to like to start a book and go through it. Beside that the book Stochastic Models, Information Theory, and Lie Groups, Volume 2: Analytic Methods and Modern Applications (Applied and Numerical Harmonic Analysis) can to be your friend when you're really feel alone and confuse in what must you're doing of this time.
