Did Six Million Really Die Richard Harwood

The fifth edition of this remarkable and famous booklet, first published in 1974, has now been fully updated and expanded by the Historical Review Press's researchers so it now is one of the most comprehensive reviews of the "Six Million" myth ever yet seen in print. When the original booklet was published, researchers had not had access to the camps behind the Iron Curtain, and as such, the text was necessarily constrained by the limits of geography and available information. This new expanded version has taken full advantage of the opportunities afforded by free access to all the camps in Poland and elsewhere since the fall of Communism. Our researchers have travelled to the most important sites in person, reviewed documentation and acquired much valuable source material. Among the many astonishing revelations in this book are the following: -How leading Zionists offered to take up arms for Nazi Germany against Britain during World War II; -How official German records shows that there were 4.5 million Jews under Nazi control, and of that number, 4.3 million lodged claims as "Holocaust victims" after the war; -How the Soviets extracted a "confession" from Germans for the Katyn Massacre (even though it is proven that the Communists committed that atrocity); -Details of how the Adolf Eichmann "memoirs" have been altered; -The shocking lies and distortions contained in the two John Demjanjuk trials; -How the Auschwitz Camp Museum has formally admitted that the "gas chamber" it has shown to millions of tourists is actually a fake; -How original German architect plans of Auschwitz show no "gas chambers"; -How forensic chemical examination of Auschwitz has disproved the use of Zyklon-B in the so-called "ruined gas chambers"; -How official Israeli and Polish university archeological digs at Belzec and Sobibór have failed to find any evidence of "gas chambers"; and of how a similar dig at Chelmno directly contradicted "eyewitness" testimony; -How the "gas chambers" at Majdanek have glass windows, baths and real showers for the alleged "victims"; -How the "carbon monoxide" gas bottles on display at Majdanek, still connected to a "gas chamber" are in fact engraved and marked as "carbon dioxide" ! -How Israel's official Holocaust Remembrance organisation Yad Vashem has shamelessly lied about a photograph of a "gas van." -How a delousing chamber at Dachau has been misrepresented as a homicidal gas chamber. This section includes, for the first time ever, original photographs of a real Zyklon-B pellet insertion mechanism in one of the delousing chambers; -How German POWs were forced to alter a shower room at Sachsenhausen to support a Soviet show trial—but that the forgery was so crude and embarrassing that the Communists knocked down the building in 1952. -The Bergen-Belsen camp is also reviewed, along with an explanation of the typhus epidemic which swept the camp in the last months of the war which created the horror images of emaciated dead bodies now associated with the "Holocaust." This new version also deals with the "eyewitness survivor" memoirs and their outright lies and forgery, starting with a superbly illustrated expose of the faked memoirs of arch-liar and "Nazi hunter" Simon Wiesenthal and many others. Finally, the last section discusses the all-important question of how and why the Holocaust Storytellers have gone through so much trouble to make up the incredible story of the "Six Million."
