Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering)

Facility location applications are concerned with the location of one or more facilities in a way that optimizes a certain objective such as minimizing transportation cost, providing equitable service to customers, capturing the largest market share, etc. Facility location problems give rise to challenging geometrical and combinatorial problems. The research on facility location problems spans many research fields such as operations research/management science, industrial engineering, geography, economics, computer science, mathematics, marketing, electrical engineering, urban planning, and related fields. Applications to facility location models abound. Location of warehouses, plants, hospitals, retail outlets are classical examples. Applications are also found in the location of electronic components, warning sirens, sprinklers, radar beams, exploratory oil wells. These are less obvious "facilities". One should consider applying a location model to any scenario that involves finding a best location (or locations) for any object(s). This book Facility Location: A Survey of Applications and Methods provides a state of the art review along with references to important contemporary topics in locational analysis. The book includes twenty chapters divided into four parts, each dealing with a different aspect of location modeling and implementation. The book concludes with over 1,200 references. The first part Methodology and Analysis consists of a survey of methodological and technical aspects of location analysis. Issues such as estimating distances, the error introduced by assuming discrete demand rather than continuous one, global optimization techniques, inference of weights, conjugate duality, and using Voronoi diagrams are reviewed.

From reader reviews:

Carrie Freeman:

In this 21st century, people become competitive in each way. By being competitive now, people have to do something to make them survive, being in the middle of the particular crowded place and notice by surrounding. One thing that occasionally many people have underestimated it for a while is reading. Yes, by reading a guide your ability to survive enhance then having chance to remain than other is high. For you who want to start reading a new book, we give you this Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering) book as beginner and daily reading guide. Why, because this book is greater than just a book.

Michael Brown:

A lot of people always spent their free time to vacation or perhaps go to the outside with their friends and family or their friend. Were you aware? Many a lot of people spent their free time just watching TV, or playing video games all day long. In order to try to find a new activity that's look different you can read any book. It is really fun for you. If you enjoy the book which you read you can spend all day long to reading a publication. The book Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering) it is quite good to read. There are a lot of those who recommended this book. We were holding enjoying reading this book. Should you did not have enough space to deliver this book you can buy the actual e-book. You can more effortlessly to read this book from a smart phone. The price is not very costly but this book offers high quality.

Cynthia Medina:

In this era which is the greater particular person or who has ability to do something more are more precious than other. Do you want to become one among it? It is just simple approach to have that. What you need to do is just spending your time not very much but quite enough to experience a look at some books. One of many books in the top listing in your reading list is actually Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering). This book and that is qualified as The Hungry Slopes can get you closer in becoming precious person. By looking right up and review this book you can get many advantages.

Darrin Russell:

You can obtain this Facility Location: A Survey of Applications and Methods (Springer Series in Operations Research and Financial Engineering) by check out the bookstore or Mall. Just simply viewing or reviewing it may be your solve difficulty if you get difficulties on your knowledge. Kinds of this e-book are various. Not only simply by written or printed but also can you enjoy this book through e-book. In the modern era such as now, you just looking by your local mobile phone and searching what your problem. Right now, choose your ways to get more information about your book. It is most important to arrange you to ultimately

make your knowledge are still upgrade. Let's try to choose suitable ways for you.
