Spatial Capture-Recapture J. Andrew Royle, Richard B. Chandler, Rahel Sollmann, Beth Gardner

Spatial Capture-Recapture provides a comprehensive how-to manual with detailed examples of spatial capture-recapture models based on current technology and knowledge. *Spatial Capture-Recapture* provides you with an extensive step-by-step analysis of many data sets using different software implementations. The authors' approach is practical - it embraces Bayesian and classical inference strategies to give the reader different options to get the job done. In addition, *Spatial Capture-Recapture* provides data sets, sample code and computing scripts in an R package.

- Comprehensive reference on revolutionary new methods in ecology makes this the first and only book on the topic
- Every methodological element has a detailed worked example with a code template, allowing you to learn by example
- Includes an R package that contains all computer code and data sets on companion website
