Transformative Approaches to New Technologies and Student Diversity in Futures Oriented Classrooms: Future Proofing Education

To what extent, and in what ways, is it possible to future proof children for a largely unknown and unknowable world? This is the key question addressed by this book. Recognising both what has changed—the social and technological contexts of schooling—and what hasn't changed—patterns of educational success and failure—the authors showcase practical examples of how educators throughout the world can use diverse technologies to empower diverse students and their communities for unknown, and unknowable futures.
